### **Advances In Biological Psychiatry**

Abstract. During the nineteenth century, scientific medicine was profoundly influenced by major advances in several fields: in microbiology, by Pasteur; in the formulation of the tissue theory of disease, by Bichat; and in the cell theory of pathology, by Virchow. The roots of biological psychiatry can be traced to the early nineteenth century, when Bayle introduced the illness concept for mental disorders with his thesis on general paralysis. 1 In this work he showed that several mental ...

Advances in Biological Psychiatry. The set of journals have been ranked according to their SJR and divided into four equal groups, four quartiles. Q1 (green) comprises the quarter of the journals with the highest values, Q2 (yellow) the second highest values, Q3 (orange) the third highest values and Q4 (red) the lowest values. The SJR is a size-independent prestige indicator that ranks journals by their 'average prestige per article'.
