Finance And

Unlike in other construction methods, owners contract only with the Design-Builder. In the two other primary construction methods used today — construction management and general contracting (also known as design-bid-build) — owners contract with different entities for architectural design and construction. Since

Wikipedia

Design-build is a popular contracting method widely used around the world, including in the U.S. As the name implies, this type of contract combines the design and construction, often called the project delivery, under a single agreement. Design-build can save time over other contracting methods and can prevent situations
