For the magazine's centenary celebration, an anthology of pieces from the early golden age of Vanity Fair. Features great writers on great topics, including F. Scott Fitzgerald on what a magazine should be, Clarence Darrow on equality, D.H. Lawrence on women, e.e. cummings on Calvin Coolidge, John Maynard Keynes on the collapse in money value, Thomas Mann on how films move the human heart, Alexander Woollcott on Harpo Marx, Carl Sandburg on Charlie Chaplin, Djuna Barnes on James Joyce, Douglas Fairbanks, Jr., on Joan Crawford, and Dorothy Parker on a host of topics ranging from why she hates actresses to why she hasn't married.

Offers essays from Vanity Fair writers on specific authors, explaining their influence on other writers and the culture at large.

The first biography in over thirty years of Condé Nast, the pioneering publisher of Vogue and Vanity Fair and main rival to media magnate William Randolph Hearst. Condé Nast ' s life and career was as high profile and glamorous as his magazines. Moving to New York in the early twentieth century with just the shirt on his back, he soon became the highest paid executive in the United States, acquiring Vogue in 1909 and Vanity Fair in 1913. Alongside his editors, Edna Woolman Chase at Vogue and Frank Crowninshield at Vanity Fair, he built the first-ever international magazine empire, introducing European modern art, style, and fashions to an American audience. Credited with creating the “ café society, ” Nast became a permanent fixture on the international fashion scene and a major figure in New York society. His superbly appointed apartment at 1040 Park Avenue, decorated by the legendary Elsie de Wolfe, became a gathering place for the major artistic figures of the time. Nast launched the careers of icons like Cecil Beaton, Clare Boothe Luce, Lee Miller, Dorothy Parker and Noel Coward. He left behind a legacy that endures today in media powerhouses such as Anna Wintour, Tina Brown, and Graydon Carter. Written with the cooperation of his family on both sides of the Atlantic and a dedicated team at Condé Nast Publications, critically acclaimed biographer Susan Ronald reveals the life of an extraordinary American success story.

Modernist Women Writers and American Social Engagement explores the role of social and political engagement by women writers in the development of American modernism through an examination of a

diverse array of genres by both canonical modernists and underrepresented writers.

The "Fresh Air" book critic investigates the enduring power of *The Great Gatsby* -- "The Great American Novel we all think we've read, but really haven't." Conceived nearly a century ago by a man who died believing himself a failure, it's now a revered classic and a rite of passage in the reading lives of millions. But how well do we really know *The Great Gatsby*? As Maureen Corrigan, *Gatsby* lover extraordinaire, points out, while Fitzgerald's masterpiece may be one of the most popular novels in America, many of us first read it when we were too young to fully comprehend its power. Offering a fresh perspective on what makes *Gatsby* great-and utterly unusual-*So We Read On* takes us into archives, high school classrooms, and even out onto the Long Island Sound to explore the novel's hidden depths, a journey whose revelations include *Gatsby*'s surprising debt to hard-boiled crime fiction, its rocky path to recognition as a "classic," and its profound commentaries on the national themes of race, class, and gender. With rigor, wit, and infectious enthusiasm, Corrigan inspires us to re-experience the greatness of *Gatsby* and cuts to the heart of why we are, as a culture, "borne back ceaselessly" into its thrall. Along the way, she spins a new and fascinating story of her own.

Looking back at the last thirty-five years of *Vanity Fair* stories on women, by women, with an introduction by the magazine's editor in chief, Radhika Jones Gail Sheehy on Hillary Clinton. Ingrid Sischy on Nicole Kidman. Jacqueline Woodson on Lena Waithe. Leslie Bennetts on Michelle Obama. And two Maureens (Orth and Dowd) on two Tinas (Turner and Fey). *Vanity Fair's Women on Women* features a selection of the best profiles, essays, and columns on female subjects written by female contributors to the magazine over the past thirty-five years. From the viewpoint of the female gaze come penetrating profiles on everyone from Gloria Steinem to Princess Diana to Whoopi Goldberg to essays on workplace sexual harassment (by Bethany McLean) to a post-#MeToo reassessment of the Clinton scandal (by Monica Lewinsky). Many of these pieces constitute the first draft of a larger cultural narrative. They tell a singular story about female icons and identity over the last four decades--and about the magazine as it has evolved under the editorial direction of Tina Brown, Graydon Carter, and now Radhika Jones, who has written a compelling introduction. When *Vanity Fair's* inaugural editor, Frank Crowninshield, took the helm of the magazine in 1914, his mission statement declared, "We hereby announce ourselves as determined and bigoted feminists." Under Jones's leadership, *Vanity Fair* continues the publication's proud tradition of highlighting women's voices--and all the many ways they define our culture.

Studies of millinery tend to focus on hats, rather than the extraordinarily skilled workers who create them. *American Milliners and their World* sets out to redress the balance, examining the position of the milliner in American society from the 18th to the 20th century. Concentrating on the struggle of female hat-makers to claim their social place, it investigates how they were influenced by changing attitudes towards women in the workplace. Drawing on diaries, etiquette books, trade journals and contemporary literature, Stewart illustrates how making hats became big business, but milliners' working conditions failed to improve. Taking the reader from the Industrial Revolution of the 1760s to the sexual revolution of the 1960s, and from Belle Epoque feathers to elegant cloches and Jackie Kennedy's pillbox hat, the book offers a new insight into the rise and fall of a fashionable industry. Beautifully illustrated and packed with original research, *American Milliners and their World* blends fashion history and anthropology to tell the forgotten stories of the women behind some of the most iconic hats of the last three centuries.

Among many art, music and literature lovers, particularly devotees of modernism, the expatriate community in France during the Jazz Age represents a remarkable convergence of genius in one place and period - one of the most glorious in history. Drawn by the presence of such avant-garde figures as Joyce and Picasso, artists and writers fled the Prohibition in the United States and revolution in Russia to head for the free-wheeling scene in Paris, where they made contact with rivals, collaborators, and a sophisticated audience of collectors and patrons. The outpouring of boundary-pushing novels, paintings, ballets, music, and design was so profuse that it belies the brevity of the era (1918-1929). Drawing on unpublished albums, drawings, paintings, and manuscripts, Charles A. Riley offers a fresh examination of both canonic and overlooked writers and artists and their works, by revealing them in conversation with one another. He illuminates social interconnections and artistic collaborations among the most famous - Fitzgerald, Hemingway, Gershwin, Diaghilev, and Picasso - and goes a step further, setting their work alongside that of African Americans such as Sidney Bechet, Archibald Motley Jr., and Langston Hughes, and women such as Gertrude Stein and Nancy Cunard. Riley's biographical and interpretive celebration of the many masterpieces of this remarkable group shows how the creative community of postwar Paris supported astounding experiments in content and form that still resonate today.

A sexual history of the 1990s when the Baby Boomers took over Washington, Hollywood, and Madison Avenue. A definitive look at the captains of the culture wars -- and an indispensable road map for understanding how we got to the Trump Teens. *THE NAUGHTY NINETIES: The Triumph of the American Libido* examines the scandal-strafed decade when our public and private lives began to blur due to the rise of the web, reality television, and the wholesale tabloidization of pop culture. In this comprehensive and often hilarious time capsule, David Friend combines detailed reporting with first-person accounts from many of the decade's singular personalities, from Anita Hill to Monica Lewinsky, Lorena Bobbitt to Heidi Fleiss, Alan Cumming to Joan Rivers, Jesse Jackson to key members of the Clinton, Dole, and Bush teams. *THE NAUGHTY NINETIES* also uncovers unsung sexual pioneers, from the enterprising sisters who dreamed up the Brazilian bikini wax to the scientists who, quite by accident, discovered Viagra.

In *Downton Abbey and Philosophy*, twenty-two professional thinkers uncover the deeper significance of this hugely popular TV saga. Millions of viewers throughout the world have been enthralled by this enactment of a vanished world of decorum and propriety, because it presents us with emotional and interpersonal problems that remain urgent for people in the twenty-first century. Why do we attach such importance to our memories and to particular places? What do war and epidemics tell us about life in peacetime and in good health? Is it healthy or harmful for people to feel that they know their place? What does *Downton Abbey* teach us about the changes in women's roles since 1912? Do good manners always agree with good morals? How can everybody know what no one will talk about? What's the justification for a class of people who pride themselves on not having a job? Should we sometimes just accept the reality of social barriers to love, and abandon the pursuit? What happens when community reinforces oppression? All of these and many other issues are discussed through a detailed examination of the actual characters and situations in *Downton Abbey*.
