The perennial bestseller—now in a new edition **Authoritative and practical, this comprehensive guide offers everything a teacher needs to know for conducting an effective art instruction and appreciation program. The Third Edition of The Art Teacher's Survival Guide for Elementary and Middle Schools includes a complete update on public-relations guidelines, and reference material examples. The revised edition also features many new projects, an update on current projects and includes an explanation of the hot topic amongst art educators, Teaching Artistic Behavior (TAB/choice). Choice-based art education is reflected in the authors' discussion of teaching in mixed-media, ceramics, photography, sculpture, and art history. More than 100 creative art projects, from drawing to digital media Offers teaching tools, tips, and multicultural curriculum resources Includes new material on logical ways to encourage individual and personal solutions to a problem Gives teachers more latitude as to how individuality is suggested in a lesson This is an invaluable compendium for art educators and classroom teachers alike.**

Collage is one of the defining subjects in Modern Art. It is as important and popular today as it has ever been. This definitive survey of collage and 3-D sculpture (made from bits and pieces stuck and nailed together) spans the whole period from about 1600 to the present day. Each page of this book is filled with fascination. The lavish illustrations include images of items such as books with fold-out flaps, Victorian collage, Valentine and greeting cards, double exposure photographs, album covers such as Sgt Peppers, the Hungry Caterpillar, many curiosities and items from Cubism, Dada, Surrealism, Pop, 70s counterculture, video and computerised collage. **AUTHOR:** Patrick Elliott is Senior Curator at the Scottish National Gallery of Modern Art, Edinburgh. He has written extensively on modern and contemporary art. Recent publications include *Another World: Dali, Magritte, Miró and the Surrealists* (2010), *Tony Cragg* (2011), *The Two Roberts: Robert Colquhoun and Robert MacBryde* (2014), *The Amazing World of M.C. Escher* (2015), *Joan Eardley, A Sense of Place* (2016) and *True to Life* (2017). **SELLING POINT:** * There are no other affordable books available on this important subject * This is the only book that looks closely at the early centuries of Collage * Collage is popular, fascinating and historically revealing 240 colour images

Collage has enjoyed a resurgence in popularity during the twenty-first century, resulting in an explosion of creativity. This showcase of cutting-edge contemporary art from across the globe features galleries of collage by 30 practitioners, from the surreal landscapes of Beth Hoeckel to Fabien Souche's humorous appropriations of pop culture. Each artist has also created a new piece especially for this book—all using the same original image, but with results as wildly diverse as the medium of collage itself. This collection is visual inspiration for art lovers and an appreciation of the transformation of old into new.

Anyone working with preschoolers and early primary age children will want this book. Over 200 activities teach children to explore and understand their world through open-ended art experiences that emphasize the process of art, not the product. Activities are included for painting, drawing, collage, sculpture, and construction.

Provides practice pages and ready-to-use activities which support national and state standards. Each unit includes objectives, assessments, math-related terms, and extensions.

These elegant cards—conceived by the biggest names in crafting, such as Lynn Whipple, Claudine Hellmuth, Terry Taylor, and Akiko Sugiyama—use many of today's popular “altered book” techniques, and the results are exquisite. In the same amount of time as it would take you to scan the racks for something mass-produced and impersonal, you can create these superbly designed, individualized 3-D and pop-up cards; photocopied, collaged, stenciled, and stamped ones; papers that have been stitched, embossed, woven, and cut; and projects incorporating fabulous folds and fasteners. There are even ideas about coordinating accompanying envelopes. And all the cards include many imaginative variations that will prompt crafters to explore the techniques in greater depth.

“Cut that out is a showcase for all the creative possibilities of collage in contemporary graphic design. Curated by Ryan Doyle and Mark Edwards, who work together as the studio DR.ME, it features the work of fifty leading designers and studios from across the globe ... each of whom uses collage techniques in spectacularly inventive and diverse ways”-
