Call it whatever you want: scientific inquiry skills, practices of scientists, the scientific method- all science teachers are aware of the value of teaching skills as well as content knowledge. But I would go a step further and say that scientific skills are the most important thing our students can learn.

inquiry skills | The Scientific Teacher

A Key Inquiry Question is the question that your research is aiming to answer. By reducing your focus down to a single Key Inquiry Question, it will help you to avoid wasting time on needless research, but also help you tell if your research has ultimately been successful.

1. Key Question - History Skills

room warmer? To answer this question, you decide to grow plants at different temperatures. The variable that you purposely change and test—the temperature of the room—is called the manipulated variable. The factor that may change as a result of the manipulated variable—how fast the plants grow—is called the responding variable.
