Jabiru 2200 Engine For Sale

The Jabiru 2200cc Aircraft Engine is a 4-cylinder 4-stroke horizontally opposed air cooled engine. At 60kg installed weight it is the lightest 4-cylinder 4-stroke aircraft engine of this output manufactured in the world. It can be installed in an aircraft at the same weight as most popular 2-stroke engines. Overall dimensions are extremely small.

The Jabiru J432 twin engine first prototype registration ZU – FYO has completed flight tests and rigorous testing and has obtained its authority to fly. We are still waiting on SA Civil Aviation Authority to give approval for the model to go into production. Engines x 2: Jabiru 2200cc 80hp / 4 cylinder, 4 stroke

Jabiru J432, Twin Engine Aircraft

We really wanted a used Kitfox that already had a Jabiru 2200 installed. Since I could not find any positive long term reports, I posted in the Jabiru forum if anybody ever made to to TBO without significant repairs other than the scheduled maintenance, including the mandatory top overhaul at 1,000 hours.

Jabiru, Good, Bad, Ugly. | Pilots of America

Hello, I am Oliver an interested in purchasing a Kitfox 4 with a Jabiru 2200 engine, here in the US. Model: 2200A Serial No: 22A 2723 I have to admit, that I posted the same question in the Jabiru owners Forum, but thought that will also want to ask for Kitfox specific experience. I did some research on the Jabiru 2200 engine, and found VERY mixed reports.

Reliability reports on Jabiru 2200 engine? Do they make TBO?

NOTE: If you can still see this advertisement then the item is still for sale. Up for grabs is my Jabiru 6 3300 with solid lifter engine. ONLY 370 hrs on airframe and engine with a recent 100 hourly done. Always hangered and a delightful aircraft to fly.
