Jboss Weld Cdi For Java
JBoss Weld CDI for Java Platform provides a nice introduction to Weld, the open source reference implementation of JSR 299 (Contexts and Dependency Injection for the JavaTM EE platform). Perhaps partially because Weld is the reference implementation, this book covering Weld also does a nice job of covering the CDI standard in general.

JBoss Weld CDI for Java Platform: Finnigan, Ken ...
Weld is the reference implementation of CDI: Contexts and Dependency Injection for the Java EE Platform - a JCP standard for dependency injection and contextual lifecycle management and one of the most important and popular parts of the Java EE. Weld is integrated into many Java EE application servers such as WildFly, JBoss Enterprise Application Platform, GlassFish, Oracle WebLogic Server, WebSphere Application Server and others.

Weld: Home
"JBoss Weld CDI for Java Platform" gives you an insight into the different scopes provided by CDI and the use cases for which each has been designed. You will learn everything about dependency injection, scopes, events, producers, and more from JBoss Weld CDI, as well as how producers can create new beans for consumption within your application.

JBoss Weld CDI for Java Platform [Book]
"JBoss Weld CDI for Java Platform" is a practical guide to CDI's dependency injection concepts using clear and easy-to-follow examples. This will help you take advantage of the power behind CDI, as well as providing a firm understanding of how to use it within your applications.

JBoss Weld CDI for Java Platform - Packt
JBoss Weld CDI for Java Platform provides a nice introduction to Weld, the open source reference implementation of JSR 299 (Contexts and Dependency Injection for the JavaTM EE platform). Perhaps partially because Weld is the reference implementation, this book covering Weld also does a nice job of covering the CDI standard in general.

JBoss Weld CDI for Java Platform, Finnigan, Ken, eBook ...
"JBoss Weld CDI for Java Platform" gives you an insight into the different scopes provided by CDI and the use cases for which each has been designed. You will learn everything about dependency injection, scopes, events, producers, and more from JBoss Weld CDI, as well as how producers can create new beans for consumption within your application.

JBoss Weld CDI for Java Platform - Free Java eBooks in PDF
JBoss Weld CDI for Java Platform's ninth chapter is the first of two chapters that use an online book store application as a CDI/Weld example intended to "provide a more indicative picture of how (Weld CDI) can be utilized," to "cover some of the CDI usage patterns that can be beneficial," and to "provide clear examples of topics that we have discussed in the previous chapters."

Book Review: JBoss Weld CDI for Java Platform | JavaWorld
JBoss Weld CDI for Java Platform provides a nice introduction to Weld, the open source reference implementation of JSR 299 (Contexts and Dependency Injection for the JavaTM EE platform). Perhaps partially because Weld is the reference implementation, this book covering Weld also does a nice job of covering the CDI standard in general.

Amazon.com: Customer reviews: JBoss Weld CDI for Java Platform
In the Java SE environment, the services might be provided by a standalone CDI implementation like Weld (see Section 18.4.1, "CDI SE Module"), or even by a container that also implements the subset of EJB defined for embedded usage by the EJB 3.2 specification. CDI is especially useful in the context of web application development,

CDI: Contexts and Dependency Injection Weld - CDI ...
CDI is fully integrated into the Java EE environment. Beans have access to Java EE resources and JPA persistence contexts. They may be used in Unified EL expressions in JSF and JSP pages. They may even be injected into other platform components, such as servlets and message-driven Beans, which are not beans themselves.

Java EE integration - JBoss
CDI is the Java standard for dependency injection and part of the EE specification. Weld is a reference implementation of CDI developed by JBoss.

Java SE: Unit Testing CDI with JUnit and JBoss Weld SE
V. Weld reference 18. Application servers and environments supported by Weld 18.1. Using Weld with JBoss AS 18.2. GlassFish 18.3. Servlet containers (such as Tomcat or Jetty) 18.3.1. Tomcat 18.3.2. Jetty 18.4. Java SE 18.4.1. CDI SE Module 19. CDI extensions available as part of Weld 19.1. Weld Logger 20. Alternative view layers 20.1. Wicket ...

Weld - JSR-299 Reference Implementation - JBoss
WeldInstance is automatically available in Weld SE and Weld Servlet where the Weld API is always on the class path. It is also available in Weld-powered EE containers. In this case, users would have to compile their

application against the Weld API and exclude the Weld API artifact from the deployment (e.g. use provided scope in Maven).

Dependency injection and programmatic lookup - JBoss
Note that Jetty distributions (from version 9.2.4) contain a dedicated CDI/Weld module which allows to deploy a CDI application without bundling the Weld Servlet integration code. However, note that if you want to deploy application using CDI along with JSF (e.g. weld-numberguess example) you need to copy the following dependencies directly to ...

Weld: Documentation
Using Weld with JBoss AS If you are using JBoss AS 6.0, no additional configuration is required to use Weld (or CDI for that matter). All you need to do is make your application a bean bean archive by adding META-INF/beans.xmlto the classpath or WEB-INF/beans.xmlto the web root!

Chapter 18. Application servers and environments ... - JBoss
java org.jboss.weld.environments.se.StartMain Gavin Of course, if you're using CDI you probably want to make much more use of dependency injection, for example: @Singleton public class HelloWorld { void printHello(@Observes ContainerInitialized event, @Parameters List<String> parameters, Hello hello) { hello.say(parameters.get(0)); } }

Weld in Java SE | Planet JBoss Developer
You have a managed bean IUserHolder (a top-level Java class) and producer method for the same bean type and qualifiers (SecurityManager.getUserHolder()). There are several ways to solve this. One of which is to "disable" the managed bean with @Vetoed annotation. Read the spec and Weld docs to find the solution most suitable for your needs See also:

How to solve Ambiguous dependencies in CDI?| JBoss.org ...
Provide a mean of building new stacks out of Java EE; Before CDI 2.0. Using Context Dependency Injection on Java SE applications is something not totally new. Here is how thing could be done using Weld. First add weld dependency to your pom.xml: <dependency> <groupId>org.jboss.weld.se</groupId> <artifactId>weld-se</artifactId> <version>2.4.6.Final </version> </dependency>

A gentle introduction to CDI 2.0 in Java SE
Weld, including integrations for Servlet containers and Java SE, examples and documentation - weld/core

core/WeldContainer.java at master · weld/core · GitHub
I'm trying to deploy a web application on Tomcat 7.0 using RESTEasy 3.0.6 for RESTful service support. However, when I try and deploy the application, I get the following Exception: 2014-04-09 11...
