Reading The Maya Glyphs

They decipher real Maya texts, and the transcriptions include a picture of the glyph, the pronunciation, the Maya words in Roman type, and the translation into English. For the second edition, the authors have taken the latest research and breakthroughs into account, adding glyphs, updating captions, and reinterpreting or expanding upon earlier decipherments.

Decipherment of Maya hieroglyphic writing has progressed to the point where most Maya written texts—whether inscribed on monuments, written in the codices, or painted or incised on ceramics—can now be read with confidence.

Reading the Maya Glyphs by Michael D. Coe

Maya Glyphs are read in paired columns, from left to right and top to bottom. Epigraphers or experts who decipher the meaning of Maya glyphs first transcribe the Maya text, writing the sounds as they would be heard by a Maya speaker. Then, they translate the text to English and other languages.

Maya script, also known as Maya glyphs, was the writing system of the Maya civilization of Mesoamerica and is the only Mesoamerican writing system that has been substantially deciphered. The earliest inscriptions found which are identifiably Maya date to the 3rd century BCE in San Bartolo, Guatemala. Maya writing was in continuous use throughout Mesoamerica until the Spanish conquest of the ...

Maya script - Wikipedia

GLYPHS THAT STAND FOR WHOLE WORDS As we said, Maya writing is a combination of glyphs that stand for syllables, or “syllable glyphs,” and glyphs that stand for whole words, or “logos.” There are 200 to 250 syllable glyphs that were used in Classical Maya writing, and about 500 logos.

A Mayan text was read from top to bottom, left to right. The glyphs are generally in pairs: in other words, you start at the top left, read two glyphs, then go down to the next pair. Often the glyphs were accompanied by a larger image, such as kings, priests or gods. The glyphs would elaborate on what the person in the image was doing.
