List of Subaru engines - Wikipedia

Your VIN is made up of a series of numbers and letters. If you count over to the fourth character in the series, you will be able to tell what product line the engine was made for. While these letters vary from year to year, generally a "B" indicates the Subaru Legacy, "G" indicates the Impreza and "S" indicates the Forester.

Subaru Engine Identification | It Still Runs

subaru marine fuel injected There was a phase in the development of this business when we dealt with marine engines using the Subaru automotive engine as a base. This compact unit was a great replacement for larger engines which made more power but were so much heavier that their performance was actually much less than these great little power ...

Kiwi Engineering - Subaru Marine Page

Types of Subaru Engines. The first Subaru Engine used in the US is the E series. Most Subarus you see on the road today have an EJ, and in 2011, Subaru introduced a completely redesigned engine, the F series. FA and FB engines are beginning to replace all EJ engines, with only the EJ257 still in the STI as of 2019.

Everything you need to know about your Subaru Engine ...

The Subaru EJ engine is a series of four-stroke automotive engines manufactured by Subaru.They were introduced in 1989, intended to succeed the previous Subaru EA engine.The EJ series is the mainstay of Subaru's engine line, with all engines of this series being 16-valve horizontal flat-fours, with configurations available for single, or double-overhead camshaft arrangements (SOHC or DOHC).
