The Development Of Psycho Analysis

Developed in Vienna, Austria, by Sigmund Freud (1856-1939), psychoanalysis is based on an approach in which the therapist helps the patient better understand him- or herself through examination of the deep personal feelings, relationships, and events that have shaped motivations and behavior. Freud developed his theories during the end of the 19th and the early part of the 20th centuries in Vienna, Austria, where he was a practicing physician specializing in neurological disorders.
